

yes we can

ONE HUNDRED and forty-three years after the abolition of slavery, America acclaimed its first black president. Nov. 4th, 2008 Democrat Barack Obama won a landslide victory to take the White House and the mantle of the 44th President of the United States.

Marcus Garvey gave inspiration so that Rosa Parks could protest. Rosa Parks sat on the bus so Dr. Martin Luther King could march. King marched, so Barack Obama could run. Obama ran and now our children can fly.

Calendar Costs \$10.00

How is?: Chronically Unemployed Loser Becomes Best PC Dr. In Canada

\$40 for Windows + programs, Internet setup and installation of peripherals like printers and web cam; \$20 for cleaning dust; \$20 for saving data; \$10 for instructions, which consist of a laminated instruction sheet, Bootit software on CD or Floppy, and an instructional DVD.

Full service for Laptop PCs, excluding parts, cost \$110. The break-down is the same as for desktops except Windows + programs for laptops is \$60.

I have images of Win 98 SE, Win 2000, XP Pro Sp2, and Vista Ultimate.

My Windows run like rockets creating a blissful Internet experience while you listen to music, watch movies and play games online. Also play and copy CD and DVD media.

Includes: Office 2007, Nero, Skype, Windows Live Messenger, Power DVD, iTunes, Real Player, LimeWire Pro, Power ISO, Firewall, Avast Antivirus, WinPatrol, Adobe Acrobat Reader, Free YouTube Downloader, DVD Flick, Scan to Office, Fax send and receive software, Essential PIM, VLC Media Player, 130+ of skool games.

Includes an image of your Windows + programs you may restore yourself without losing your data! This is the real beauty of my service!

This autumn 2008, I started Dr PC Overseas Repair Service. I hope to do business overseas from here in Canada. My do it yourself PC repair services are available overseas for just \$60! See <http://drpcdr.ca/overseas.doc>

Really, I fell into doing computer repairs. I thought I could earn \$20 by installing Free Internet. My card at the time said:

"Free Internet, Fast and Always Free"

Others like the 3web CD you bought at Canadian Tire boasted Free Internet for Life. After the collapse of 1stUp.com and Spinway.com, the Titanic demise of 100's of free Internet service providers soon followed in around 2000.

The few still afloat were: 3web, Funcow, AOL, NetZero, Juno, Blue-Light.com and Address.com and not many others.

At this time I had my cards posted on bus shelters. So when people could no longer go on the Internet, demand for my services became overwhelming. As long as Free Internet existed I remained in business! Soon all free Internet disappeared! They failed because they discovered they could not make enough money through banner advertising.

Now without Free In-

ternet I concentrated on computer repairs I had learned on the fly while installing Free Internet. And business slowed dramatically!

In Brampton 2004, a radical new approach to computer repair was born! I repair computers by restoring prepared images of Windows + programs onto free space. If important files exist, I can save them first before wiping your hard drive. Lastly, I create an image of Windows and programs you may restore yourself without losing your data! This is the real beauty of my service!

My website, <http://drpcdr.ca>, started in late 2004 has attracted 55,000+ people mostly from Canada, US and worldwide.

Today I boast confidently that I am the best PC doctor in Canada because no-body else empowers their customers to repair Windows themselves without losing data.

Full service for desktop PCs, excluding parts, cost \$90. This breaks down as follows:
